GEOLOGISKA FÖRENINGENS I STOCKHOLM FÖRHANDLINGAR

ISSUED QUARTERLY BY THE GEOLOGICAL SOCIETY OF SWEDEN

EDITOR: BENGT LINDQVIST

VOLUME 104 · 1982

GFF

REDAKTIONSTJÄNSTEN (FRN) · STOCKHOLM

Printed in Sweden by Berlings, Arlöv 1983

CONTENTS

1 Moorman, A. C., Andriessen, P. A. M., Boelrijk, N. A. I. M., Hebeda, E. H., Oen, I. S., Priem, H. N. A., Verdurmen, E. A. Th., Verschure, R. H. & Wiklander, U.: K–Ar and Rb–Sr mineral ages of skarns and associated metabasites and leptites in the Hjulsjö area of the Bergslagen ore province, central Sweden

11 Daly, J. S., Park, R. G. & Crane, A.: Age relations of Sveconorwegian granitoid rocks in the Stora Le–Marstrand belt, Orust area, Sweden

17 Persson, P.-O. & Hansen, B. T.: The Rb–Sr age of the Sundsta granite in the Western Pregothian tectonic mega-unit, southwestern Sweden

23 Beckholmen, M.: Mylonites and pseudotachylites associated with thrusting of the Köli Nappes, Tännforsfältet, central Swedish Caledonides

33 Thy, P. & Esbensen, K. H.: Origin of certain types of small-scale igneous layering from the Fongen–Hyllingen basic complex, Norway

43 Frietsch, R.: Chemical composition of magnetite and sphalerite in the iron sulphide ores of central Sweden

49 Kristiansen, J., Saxov, S., Balling, N. & Poulsen, K.: In situ thermal conductivity measurements of Precambrian, Palaeozoic and Mesozoic rocks on Bornholm, Denmark

57 Wickman, F. E. & Uddenberg-Andersson, A.: Bleckenstad, the only calcarite, is a pseudometeorite

63 Ehlin, P.-O.: Seasonal variations in metal contents of birch

69 Svensson, H.: A low-lying polygon locality on the Laholm plain, Swedish west coast

75 Björkman, H. & Trägårdh, J.: Differential uplift in Blekinge indicating late-glacial neotectonics

81 Sundquist, B.: Wackestone petrography and bipolar orientation of cephalopods as indicators of littoral sedimentation in the Ludlovian of Gotland

91 Carserud, L.: Soviet research on black shales and ore formation

95 Ericsson, B., Lidén, E. & Robertsson, A.-M.: New pothole supports reinterpretation of Svea River

113 Nord, A. & Billström, K.: A system for stable isotope analyses of geological samples

121 Persson, L.: A postorogenic volcanic sequence with an intraformational conglomerate, and related granites in the Väderstad region, south central Sweden

132 Björck, S. & Digerfeldt, G.: Late Weichselian shore displacement at Hunneberg, southern Sweden, indicating complex uplift

157 Sundquist, B.: Palaeobathymetric interpretation of wave ripple-marks in a Ludlovian grainstone of Gotland

167 Brood, K.: Ashgill Bryozoa from a fissure filling at Solberga, Dalarna

182 Ahlin, S.: NNE–SSW striking Precambrian faults of south-western Sweden

186 Parasnis, D. & Elming, S.-Å.: The non-magnetic house of the University of Luleå, Sweden

189 Bruton, D. & Harper, D. T.: Ordovician gastropods from Vardofjället, Swedish Lapland, and the dating of Caledonian serpentinite conglomerates: A discussion

191 Holmqvist, A.: Ordovician gastropods from Vardofjället, Swedish Lapland, and the dating of Caledonian serpentinite conglomerates: A reply

197 Andersson, A., Dahlman, B. & Gee, D. G.: Kerogen and uranium resources in the Cambrian alum shales of the Billingen–Falbygden and Närke areas, Sweden

211 Vortisch, W., McMinn, J., Lindström, M. & Starke, K.: Arsenic enrichment at the Cambro-Ordovician boundary in south Sweden

219 Lisle, R. & Savage, J.: Factors influencing rock competence: Data from a Swedish deformed conglomerate

225 Åberg, G. & Wikström, A.: Radiometric dating of the postorogenic Graversfors granite, south central Sweden

231 Dzik, J.: Larval development and relationships of *Mimospira* – a presumably hyperstrophic Ordovician gastropod

241 Ahlberg, P. & Bergström, J.: Lower Cambrian trilobites from southern Swedish Lapland

247 Strömquist, L.: Glacial clay at Katterjåkka and the question of Vassijaure ice lake, Swedish Lapland

251 Lundström, I. & Norlander, H.: Current ripple marks in a Svecokarelian quartzitic mica schist

293 Beckholmen, M.: Petrography, petrochemistry and regional significance of the Saxvallklumpen metabasite, Köli Nappe Complex, Tännforsfältet, central Swedish Caledonides

305 Andréasson, P.-G. & Johansson, L.: The Snåsa Mega-lens, west-central Scandinavian Caledonides

327 Meakin, J.: Geochemistry and tectonic implications of the basement and cover metadolerites from the West Coast Gneiss Region (Vestranden) of the central Scandinavian Caledonides

345 Hardenby, C.: Structural geology of the Kjølhaugan area, eastern Trøndelag–westernmost Jämtland, central Scandinavian Caledonides

Summaries of talks

255 Olausson, E.: Pleistocene stratigraphy and chronology

256 Berglund, B. E.: Holocene chronology

260 Åström, P.: Egyptian and Mesopotamian chronologies

261 Moberg, K.-A.: Archaeological chronology – as seen from a university department in Northern Europe

262 Håkansson, S.: Dating problems in the interval 130 000–60 000 B.P. (Eemian–Weichselian)

263 Mörner, N.-A.: Palaeomagnetism

266 Nydal, R.: Uranium-series dating

267 Olsson, I. U.: Secular ^{14}C variations and calibration of ^{14}C dates

268 Olsson, I. U.: Radiocarbon dating with accelerators

270 El-Daoushy, F.: Lead-210 and its environmental and sedimentological applications

271 Mejdahl, V.: Thermoluminiscence dating

273 Kristiansson, J.: Varved sediments and the Swedish time scale
275 Renberg, I.: Varved lake sediments – geochronological records of the Holocene
279 Bartholin, T. S.: Dendrochronology
280 Hillefors, Å.: Excursion: Weichsel glaciation chronology of western Sweden and the Göta River valley
369 Zweifel, H.: Ore deposits in the Skellefte field – Volcanic activity and depositional environment
370 Rickard, D.: The origin of Skellefte field-type ores: an overview
371 Isaksson, I.: Volcanic cycles and ore formation in the Boliden–Långsele–Långdal area
372 Widenfalk, L.: Mercury zoning in the Skellefte Ore District illustrated by the Långsele and Kankberg ore deposits
373 Jonsson, R.: The Renström ore body – a proximal volcano-sedimentary deposit located near a volcanic eruption center
373 Trepka-Bloch, C.: Rakkejaur – a volcanogenic, proximal massive sulfide ore
373 Hjorth, S.: Deep ore exploration – a Swedish programme for technical development
374 Sundblad, K.: Lead isotope composition in sulphide ores in the Swedish Caledonides and their use in interpreting palaeo-environments
375 Frietsch, R.: Alkali metasomatism and ore formation in central Sweden
376 Edvardsson, U.: Bakteriell sulfidmalmslakning
377 Holm, N. G.: Hur farligt är innehållet av arsenik och tungmetaller i Skelleftebuktens sediment?
377 Andréasson, P.-G.: Some tectonometamorphic features of the Caledonides along the Skellefte River, northern Scandes
378 Claesson, L.-Å.: Stratigraphy and petrochemistry of the ore-bearing Skellefte Group volcanites
379 Wilson, M. R.: The Jörn granitoid complex: a multidiscliplinary study
381 Enmark, T. & Nisca, D. H.: The Gallejaur intrusion in northern Sweden – a geophysical study
381 Holmqvist, A., Ihre, P., Isaksson, H., Lundholm, I., Nisca, D. & Quezada, R.: The Lycksele ring – a possible circular structure in Västerbotten county, northern Sweden

Research notes
10 Kresten, P.: Kinetics of the thermal decomposition of thaumasite from Långban
210 Kresten, O. & Nairis, H. J.: Alnö diamonds
240 Kresten, P., Nairis, H. J. & Wadsten, T.: Hydroandradite from Alnö Island, Sweden

Debate
304 Häggbom, O.: The Scandian episode of the Caledonian diastrophism in Scandinavia: nomenclature

Society matters
367 Ramberg, H.: Erik Norin, *in memoriam*
382 Society proceedings

Announcements
22 Symposium on Computer applications in the mineral industries
48 Congress on Mine ventilation
254 16 Nordiska Geologiska Vintermötet
254 Colloquium on accelerators and dating

Literature reviews
16, 21, 62, 67, 68, 74, 80, 94, 102, 130, 156, 196, 285, 290, 366 Books
101 Maps
101 Symposium Proceedings

Authors of literature reviewed
G. Buntebarth 393, V. Cermák & L. Ryback 94, A. H. Cook 290, D. S. Cronan 292, J. R. Dodd & R. J. Stanton Jr. 196, P. G. Embrey & J. P. Fuller (eds.) 366, G. B. Fettweiss 80, J. Q. C. Fortescue 62, H. Füchtbauer & T. Peryt (eds.) 109, M. R. House 103, H. A. Jensen 74, L. Jeppsson 290, J. Jonasson & M. Elg 21, Z. Jurowska & W. Kroczka 101, P. Kent 285, B. Kurtén & E. Anderson 111, H. R. Langguth & R. Voigt 16, R. E. Leakey 394, J. J. Lowe, J. M. Gray & J. E. Robinson 110, M. A. Meylan, G. P. Glasby & L. Fortin 131, S. A. Morse 390, P. E. Potter, J. B. Maynard & W. A. Pryor 102, R. A. Reyment & P. Bengtson (eds.) 392, W. D. I. Rolfe, J. K. Ingham, S. Neville, J. Brannan & E. Campbell 111, D. A. Ross 131, Råvarugruppen 68, Ch. Schlüchter 104, M. Sears & D. Merriman 62, F. S. Szalay & E. Delson 80, H. Tappan 156, B. P. Tissot & D. H. Welte 107, P. A. Trudinger & D. J. Swaine 67, P. Turner 390, W. A. Visser (ed.) 108, J. Wiedma (ed.) 106. A. Witkowski 101

Reviewers
L. Adrielsson 104, S. Axberg 101, P. Bengtson 108, B. E. Berglund 110, J. Bergström 103, 111, L. Bjelm 94, K. Boström 131, 285, 292, K. Brood 290, L. Carserud 67, 68, W. K. Christensen 106, 393, H. Göransson 74, C. Hjort 21, N. B. Hollander 107, I. Johansson 16, G. Kjellström 156, M. G. Kumpas 101, B. Kurtén 394, G. Larsson-Leander 290, A. Lindh 391, 393, B. Lindqvist 366, A. Löfgren 196, A. Martinsson 80, N. J. Mateer 111, E. Olausson 62, A. Rodhe 102, 390, O. Stephansson 101, U. Sturesson 62, B. Sundquist 109, 292, L. Werdelin 394

Publications
98, 193, 286, 386 Current titles on the geology of Sweden

Miscellanea
255 Summaries of talks given at the symposium on Dating methods and their application within the Quaternary time-scale
369 Summaries of talks given at the symposium on Geology of the Skellefte field – ore geology, petrology, mineralogy and Quaternary geology
